

→ Slider lift for light and medium size trucks

DH-SM.15 • 1000 - 1500 kg

The DH-SM.15 is the **lightest of the conventional slider lifts** with single fold platforms. It is equipped with a compact lift frame and short lift arms, in order to minimize the required overhang, and forms an ideal fit for light and medium capacity trucks of 7.5 to 12T GVW.

In its travel position, the DH-SM.15 is **safely stored** underneath the chassis of the vehicle. It is ideal for frequent fork lift and dock loading operations, for demountable bodies, for occasional use, and all applications requiring quick and free access to the cargo space.
